*Captain Mark Kelly, American Astronaut and Husband of former US Congresswoman Gabrielle Giffords to Provide Keynote Address*

**Woodland Hills, Calif. – November 20, 2014** – The Intercompany Long Term Care Insurance Conference Association, Inc. (ILTCI) today announced its 15th annual conference ([www.iltconf.org](http://www.iltconf.org)), to be held March 22-25, 2015 at The Broadmoor in Colorado Springs, Colorado. Over 1,000 long-term care insurance (LTCi) experts representing a diverse network of organizations, associations, agencies, and care providers, each representing a specific functional area of LTCi, are expected to attend. Co-sponsored by the LTCi Section of the Society of Actuaries, the conference features more than 150 industry speakers conducting over 50 educational breakout sessions, together with additional pre- and post-conference certification classes.

Decorated naval aviator, astronaut, and best-selling author, Captain Mark Kelly, and his wife, Gabrielle Giffords, a former Congresswoman and survivor of a 2011 assassination attempt, have traveled a very public journey of rehabilitation and recovery, as representatives of a growing segment of middle-aged Americans confronting long term care following a debilitating injury. Captain Kelly's Monday morning keynote address will include his unique perspective on pursuing excellence and staying true to one's self even when faced with seemingly insurmountable challenges.

"Our 2015 ILTCI Conference offers an important forum in which an exceptional community of insurance and technology experts comes together to address the complex issues surrounding long term care," said conference chairperson David Kerr. "Amidst the challenges, of course, there are also some exciting opportunities, and this conference provides a complete and current vantage point from which attendees can consider both."
